# Kolbe® Assessment

Unlike other assessment instruments, Kolbe® measures an individual's cognitive or instinctive way of approaching and solving problems.

---

Predictive, it allows you to understand how an individual will perform in a specific role or within a team situation. An individual's profile doesn't change over time so it remains constant in understanding the potential you have in your organization. This provides the ability to harness this incredible power to impact your bottom line.

Using Kolbe®, TidalShift can assist with:

- Predicting Performance: Hiring the Right Person for the Job
- Forecasting Team Success: Configuring teams to ensure results
- Aligning talents to the Role: Driving individual productivity by ensuring the right person in the role
